

SYLLABUS OF CHEMISTRY FOR CLASS --- XI (2017- '18)

MONTH	UNIT	Evaluation
JUN 4	<p align="center">Chemical calculations</p> <p align="center">Solid State</p> <p align="center">General Introduction to Metallurgy</p> <p align="center">Purification of organic compounds</p>	<p align="center">July Monthly test</p>
JUL 3	<p align="center">Atomic structure</p> <p align="center">Periodic Classification</p> <p align="center">Detection and Estimation of Elements</p>	<p align="center">August Monthly test</p>
AUG 3	<p align="center">Basic concepts of Organic chemistry</p> <p align="center">Colligative properties</p> <p align="center">Gaseous state</p>	<p>7 lessons+extra included in pre-quarterly exam (according to completion of extra lessons)</p>
SEP	<p align="center">Chemical bonding</p> <p align="center">QUARTERLY EXAM</p>	
OCT	<p align="center">1- s Block elements</p> <p align="center">Chemical Equilibrium</p>	<p align="center">October monthly test</p>
NOV	<p align="center">Chemical Kinetics</p> <p align="center">2-s Block Elements</p> <p align="center">Thermodynamics</p>	<p align="center">Pre - half yearly examination</p>
DEC	<p align="center">HALF - YEARLY EXAM</p>	
JAN	<p align="center">Aromatic Hydrocarbons</p> <p align="center">Organic Halogen compounds</p> <p align="center">p- Block elements</p>
