

## TURTLE WALK

Greenwood and Eco club students of class 8th were taken for a turtle walk on 14th February 2020 organized by tree foundation Chennai (NGO).

They were taken to Neelankarai beach office of tree foundation around 7 pm. The students were first shown with a documentary film about Olive Ridley turtles.

Then students were taken to the hatchery, and then took a turtle walk along the coast for a stretch of 5 kms from neelankarai to injambakkam. The students were shown a track of an entry and exit of a turtle which has recently walked in to lay her eggs.

Tree foundation had arranged for a mock hatching of turtle along coast to avoid disappointment to the students.

They were brought back to office around 11:45pm.

On the whole the students learned why and how turtles should be saved and had fun too.
