

In the Earthian project conducted by Wipro and CPREEC (an activity based learning program for schools) under the guidance of Mrs. Deena Samuel of biology department, the high school students participated in the month of December 2020 and won the regional recognition award. The team consisted of Logashree. S of 11A, Maheshwaran. S of 11A, Koushik kamalahasan of 10A, Aryan. I of 10A and Narayan Sekar of 9C. Overall out of 250 projects from schools of Tamil Nadu and Pondicherry, 65 were shortlisted and out of which 21 were awarded the regional recognition awards. The winners were awarded with a gift memento and a certificate. The activity includes role play, building a working model and water management surveys. It boosted the creativity of our students and paved a way for them to learn new things. The team took help from the non-teaching staffs Mr. Vinoth, Mr. Babu and Mr. Gnanasekar. We thank our principal, vice principal and the section head for their constant support and encouragement. The students visited the school to install a foot generated hand wash as a part of the activity and also presented an essay on their experience on pandemic situation. Students worked on the motto, "Water is essential for mankind to flourish, so it is our duty to conserve it for our future generations" crown of our project-generate water from "AIR"
