

# WORLD MOLE DAY

23<sup>rd</sup> October 2021

Vana Vani Matriculation Higher Secondary School celebrated **International Mole Day** on 23<sup>rd</sup> October with great zeal and enthusiasm. Department of Chemistry conceptualized and organized the program involving students from classes IX to XII. The objective of this celebration was to make the students passionate about learning Chemistry.

Students recorded the program and telecasted it on the Vana Vani YouTube channel. They understood the concept of Mole through a laboratory activity called **Mass to mole**

**conversions**. Students also delivered speeches highlighting **the history and scientific aspects of Mole**.

XI and XII graders participated in a **quiz**. Students of X and XII presented a **drama** introducing the concept of the Mole and learned about it in a play-way method. Students of Class IX and X added an element of fun and frolic by dancing and singing about mole. The program culminated with bursting of balloons and birthday song for Mole.
