

6<sup>th</sup> September 2021

## Primary-Reading Day

“The more you **read**  
the more **things** you know.  
The more that you **learn**  
the more **places** you’ll go.”  
-Dr. Seuss

Reading Day was celebrated by the students of the Primary Section on 6<sup>th</sup> September 2021 to inculcate the habit of reading. It was an initiative taken by the school for instrumenting a positive change in the students. They enthusiastically participated and read books of their own choice in their virtual classes. Later they shared the details of the books they read with their classmates.

The students were enlightened on the enormous benefits of reading and some tips were shared with them to develop their reading skills. They were briefed about the life of P. N. Panicker, the father of the library and Literacy Movement in Kerala. They also got to know about the lives of successful people who had reading as their habit. It was indeed an enriching and fun-filled day for the students, which ended with great satisfaction and success. The recording of all the classes was uploaded in Neverskip.
