

## REPORT ON RAILWAY MUSEUM

STD : 3

The field trip was arranged to **ICF (integral coach factory)** in CHENNAI on **10.02.2023**. The main objective of the visit is to make the students aware of various activities related to furnishing works for manufacturing rail coaches. We (faculty) along with **104 students** started from the school for the visit at 8:30am and reached ICF at 10am. Students of **Vana-Vani School** had a practical experience of learning about the Railways; they were taken to "**ICF Railway Museum**". The magnificent railway museum captivated the students.

There were different models of coaches' exhibits at the museum which enlightened the learners. The students proceeded to the building with information on the history of railways, pictures, photos and train models which kept them busy jotting down most of the information they gathered.

Students had a joy train ride which gave them a vision of the landscape, around the museum. There were other exhibits and models made out of waste (creativity at its best) which boosted their imagination. The sessions were highly informative and interesting. This visit was very useful to our students.
