

REPORT

The 12th Std Biology students of Vana Vani Matriculation higher secondary school were taken to the Biotechnology lab IIT Madras Chennai (Lab No 514- Cardiovascular genetics lab) on 1st october 2022 . First we were split into five batches each with one mentor and was given a brief explanation on the various techniques and processes. In the lab we saw the PCR (Polymerase chain reaction), Gel electrophoresis,Western blotting, Laminar air flow chamber (LAF) etc...It was indeed a great opportunity for the students to learn and experience the various techniques. We thank Dr. Nitish R Mahapatra for allowing us to visit the lab and would also like to thank Miss.Povitha our Alumni who made this possible. We thank our principal for his guidance and support.
