Community Lunch

On the 28th of June, we, the students of class 12 had a lovely little community lunch. The idea was to bring lunch for yourself and a half a lunch to share with friends. It was an exciting feeling to sit together with all our friends and added to this along with our teachers was even more memorable! The excitement started the day before as we were discussing with friends what they were going to bring so that the food doesn't get repeated! Everyone brought a variety of food from their home. We sat in a circle at our school ground and shared our food with others. The community lunch was arranged for very first time in our school. It inculcates a better food habits in children as well as to know the food culture of our friends from different religions. It inculcates a habit of sharing and the joy of sharing can't be expressed by words!

Sharing meals with others can create a sense of connection and a special bond with others. Sharing with our friends created a feeling of satisfaction which brought chills to the heart. It was a different experience as the students had their lunch outside sitting under a tree. The initiative to have lunch together, which was magical as the students sat together to have lunch post COVID 19, which was executed successfully and perfectly.
