

On October 29, 2024 safe Diwali Celebrations skit was performed by the nursery teachers. Our teachers had prepared a wonderful skit to educate and entertain the young ones about the importance of safety during Diwali celebrations. They demonstrated the do's and don'ts of bursting crackers.

The skit covered essential safety tips such as wearing simple cotton clothes while bursting crackers, avoiding loud crackers that can hurt ears and scare animals, keeping a safe distance while bursting crackers, having a bucket of water nearby in case of emergencies.

Our teachers brought the message to life with their energetic and engaging performance using simple language and relatable examples that our little ones could easily understand.
