

Trip of Class 1 to Birla Planetarium

The students of standard 1 went on a field trip to ‘**Birla Planetarium**’ on **9^h February, 2024**. This trip was indeed a flight through the universe. They were excited to have a 3D view of the things that they had just imagined to be huge luminous objects somewhere out there in the vast space in the universe. There were a few other exhibits at the Planetarium which enlightened the learners. The children were thrilled looking at, the Solar System, different planets, sky and Earth, comets, shooting meteoroids and the stellar cycle. As the lights dimmed and the journey through the stars began, the excitement among the students was overwhelming. The skies came alive on the massive dome theatre. The show was extremely good and provided a good visual experience.

A 3D show about dinosaur world was stunning experience to the kids which transported them back in time to the era of the dinosaurs. The lifelike visuals and immersive sound effects captivated the students, immersing them in the prehistoric world.

The visit sparked and ignited imaginations, and inspired a sense of wonder, leaving a lasting impact on the celestial world around them.
