

PRIMARY INTER-HOUSE ACTIVITIES –

9th NOVEMBER 2024 (ACTIVITY-4)

On November 9th, a thrilling "Memory Game" competition brought together Grade 2 and 3 students from all houses, showcasing their impressive memory skills. The two-round competition challenged students' recall abilities in both written and oral formats. In the first round, students demonstrated their versatility by recalling missing animals, deciphering color codes, memorizing colors and numbers, and recognizing words. The second round intensified the challenge with an oral memory test, where students were presented with repetition and sequences of items – such as fruits, shapes, words, and letters – and were tasked with accurately recalling their order. Despite the pressure, our young scholars excelled, proving their remarkable memory retention.

The winners are as follows.

“Memory Mastermind -Memory game”- II Std (2 students per team)
