

### **PTM ON 8<sup>th</sup> JUNE 2024**

The Nursery, LKG, UKG, Primary (I-V), and Higher Secondary (XI) PTM was held on 8<sup>th</sup> June 2024 at the primary school auditorium. Our Nursery teachers briefed the parents about the do's and don'ts with the help of a PPT. The most important points included punctuality, ensuring children bring healthy snacks and lunch, and the writing assignments for LKG and UKG students.

The Primary Section conducted a PTM for classes I to V, where teachers presented a detailed PPT on the new system that will be followed in teaching and evaluation. This included an overview of the curriculum, assessment methods, and strategies to support student learning at home.

For the Higher Secondary (XI) section, important points were discussed, such as the significance of wearing the proper uniform, adhering to the school's dress code, and maintaining appropriate hairstyles. Additionally, the benefits of students coming to school by cycle were highlighted, promoting physical fitness and environmental awareness. The session also covered academic expectations, extracurricular opportunities, and support systems available for students.

Parents were very happy to receive so much comprehensive information, which helped them understand the school's policies and their children's educational journey better. The principal addressed the queries of the parents, providing clarity on various concerns and emphasizing the collaborative effort between the school and parents to ensure the students' success.
