

Report on Van Mahotsav Day Celebration 2026

Our school celebrated **Van Mahotsav Day** with great joy and enthusiasm. Many interesting activities were conducted for the primary students on **2nd July 2026**. The celebration continued with a **Sapling Plantation Activity** on **6th July 2026** in the Primary Garden.

The celebration began with a special morning assembly by the **Grade 5 students**. They performed a **fun and meaningful "Skit"** on the importance of Van Mahotsav. The skit taught everyone why trees are important and how we should protect nature. At the end of the assembly, all the students took an **"Environmental Pledge"** to plant more trees, keep the surroundings clean, and protect the environment.

The **Grade 3** students enjoyed making colourful **"Bookmarks"** with tree drawings and nature-related quotes. The activity encouraged them to love reading and care for nature.

The **Grade 4** students made beautiful **"Leaf-printing foldable greeting cards"** using fresh leaves. They also wrote simple messages about saving trees and protecting the environment.

The **Grade 5** students participated in a **"Seed ball-making activity"**. They learned how seed balls help grow new plants and make the Earth greener.

On **6th July 2026**, primary students from **Grades 1 to 5** participated in a **"Sapling Plantation Activity"** in the Primary Garden. They planted different saplings and promised to take care of them.

All the students participated happily and with great excitement. The celebration helped them understand that every small step can make a big difference in protecting our environment.

Teacher in charge: R. Vanitha Bagyalakshmi

Std 5 - Skit

Std 3 - Bookmark making activity

Std 4 - Leaf printing foldable greeting card

Std 5 - Seed ball-making activity

Std 1 to 5 - Sapling day
