

World Environment Day Celebration – June 5th 2026

The school enthusiastically celebrated **World Environment Day on 5th June** with the theme **“To Protect Ecosystem.”** in the primary section. The programme was conducted for a duration of one hour with the objective of creating environmental awareness among students and encouraging them to adopt eco-friendly practices in their daily lives.

The celebration commenced with a prayer followed by a special speech highlighting the significance of World Environment Day. Students were introduced to the importance of protecting ecosystems and preserving nature for future generations.

A series of class-wise activities were organized during the first period for students from Standards I to V.

Standards I and II participated in a colouring activity based on the theme of **Mangrove Forests**, helping them appreciate the beauty and ecological importance of these unique ecosystems.

Standard III students showcased their creativity by drawing black-and-white pictures on the topic **“To Protect Ecosystem.”** Their drawings reflected important environmental messages such as saving electricity, reducing waste, conserving water, and growing more greenery.

Standards IV and V took part in a slogan-writing competition. The students created meaningful and thought-provoking slogans based on the year's environmental concerns:

- Inspired by Nature
- Climate
- Our Future Dependency

The students actively participated in all the activities and demonstrated a keen understanding of environmental conservation. The celebration served as an excellent platform to inspire young minds to become responsible citizens and environmental stewards.

The programme concluded with a pledge to protect nature and contribute towards a cleaner, greener, and more sustainable future.
